

SUMMER SPECIAL: Personalize your wedding website with a FREE dotWED domain name for 1yr. Use code ENZT15CT62 at Nominate.wed. Code good until 8 August 2015.

After you obtain your personal .wed domain name and setup your wedding website, follow the instructions below to replace the long URL (ex. www.freeweddingwebsite.com/yourname) with your custom .wed domain name. See a list of wedding website vendor suggestions in our website FAQs, www.get.wed/faqs.html.

Step 1. After you register using the promotion code and receive the confirmation email, login to your Control Panel at nominate.wed.

Type in your domain name and password.

Welcome to the Login Page

After successfully logging in you will have access to the user interface.

Enter your Account Name or Domain Name:

Enter your Password:

Please Note: Name and Password are Case Sensitive

Forgotten your password?

Enter your Account Name or Domain Name:

Step 2. Click on Web Forwarding.

Control Panel for : sayyouwill.wed
Expiry Date : 8 May 2016

Important:
Some country code domains, such as .es & .ch need to be renewed before their expiry date.
All ICANN domains subject to Registrant Rights and Responsibilities & UDRP.

Step 3. Cloak the long URL.

Control Panel for : sayyouwill.wed
Expiry Date : 8 May 2016

Change Domain Web Forwarding

Domain Name: sayyouwill.wed
Method: Cloak
Forward To: <http://www.mywedding.com/cydneandherman/>
(e.g. <http://www.myotherdomain.co.uk/>)
Title: CydneandHerman
Description:
Keywords:

[Change Web Forwarding](#) [Cancel Changes](#)

- Choose "Cloak" as the Method.
- Enter the long URL from your wedding website in the "Forward To" box.
You must type http://.

for example: <http://yourweddingwebsite.com/maryandjohn>

- Click "Change Web Forwarding" button on the top right.

- YOU ARE DONE! Type in your .wed domain name after 24hrs and it will take you to your wedding website. Please contact us at info@get.wed if you have any issues or questions.
