

After you obtain your personal .wed domain name and setup your wedding website, follow the instructions below to replace the long URL (ex. www.freeweddingwebsite.com/yourname) with your custom .wed domain name. See a list of wedding website vendor suggestions in our website FAQs, www.get.wed/faqs.html.

Step 1. After you register using the promotion code and receive the confirmation email, login to your Control Panel at nominate.wed.

Type in your domain name and password.

Welcome to the Login Page

After successfully logging in you will have access to the user interface.

Enter your Account Name or Domain Name:

Enter your Password:

Please Note: Name and Password are CaSe SeNsItIvE

Forgotten your password?

Enter your Account Name or Domain Name:

The password will be emailed to the Account Holders email address or to the Domain Admin email address that we have on record.

If this is wrong please contact us to update it.

Step 2. Click on Web Forwarding.

The screenshot shows the Nominat control panel for the domain sayyouwill.wed. The page has a red header with the Nominat logo and ICANN logo. Below the header, there is a navigation bar with 'Telephone Support : +44 (0) 1582 572148', 'Home', and 'Log Out'. The main content area is divided into several sections:

- Important:** Some country code domains, such as .es & .ch need to be renewed before their expiry date. All ICANN domains subject to Registrant Rights and Responsibilities & UDRP.
- Current Configuration of Your Domain:** A table showing domain details like Date Registered (8 May 2015), Expiry Date (8 May 2016), Status (Active), and Web Forwarding (http://www.mywedding.com/cydneyandherman/).
- Manage Your Domain:** A list of actions: 1. Change DNS Servers/Ownership Information, 2. Change DNS Zone File, 3. Email Forwarding, and 4. Web Forwarding (circled in red).
- Manage Your Account:** A list of actions: 1. Renew Domain Registration, 2. Pay Web Hosting / Email Box Invoice(s), 3. View Invoices, and 4. Domain Certificate.

Step 3. Cloak the long URL.

The screenshot shows the 'Change Domain Web Forwarding' form in the Nominat control panel. The form has the following fields:

- Domain Name: sayyouwill.wed
- Method: Cloak (selected)
- Forward To: http://www.mywedding.com/cydneyandherman/ (e.g. http://www.myotherdomain.co.uk/)
- Title: CydneyandHerman
- Description: (empty)
- Keywords: (empty)

Buttons for 'Change Web Forwarding' and 'Cancel Changes' are visible.

- Choose "Cloak" as the Method.
- Enter the long URL from your wedding website in the "Forward To" box. You must type http://.

for example: <http://yourweddingwebsite.com/maryandjohn>

- Click "Change Web Forwarding" button.

- YOU ARE DONE! Type in your .wed domain name after 24hrs and it will take you to your wedding website. Please contact us at info@get.wed if you have any issues or questions.
